**KUAT & Lentur**

Piping System for  
Telecommunication Cable

*Maximum*  
protection for  
*your cables*

CIQS 2000

# Technical Specification

PT Rusli Vinilon Sakti, is the uPVC & PE pipe and accessories manufacturer, which has closely involved in research and development of uPVC and PE pipes with telecommunication companies to achieve the highest attainable quality standard. We proudly present the best products with numerous superior qualities and features: Polyethylene pipe (PE).

As a pioneer in fiber optics cables shielding (duct and sub-duct cables), our pipes are certified from Telkom STEL L-039-2008 Ver.2.2. It is also our great honour that Vinilon PE standard pipes for fiber optics shield has been widely used and well accepted in all major telecommunication projects throught out Indonesia. Vinilon provides maximum protection for telecommunication cables to assure years of uninterrupted services.

**SPECIFICATION OF PE SUB-DUCT PIPE FOR FIBER OPTIK CABLE TELKOM STEL L-039-2008 Ver. 2.2 COLOUR: BLACK WITH 4 BLUE STRIPES**

Type	Diameter (mm)	Wall Thickness (mm)	Length of Pipe/Coil (mtr/roll)
SDT IA	32 x 27	2.5	400
SDT IB	32 x 28	2.0	400
SDT II	40 x 34	3.0	200

**SPECIFICATION OF PE SUB-DUCT PIPE FOR FIBER OPTIC CABLE TELKOM STEL L-039-2008 Ver. 2.2 COLOUR: BLACK WITH 4 YELLOW STRIPES**

Type	Diameter (mm)	Wall Thickness (mm)	Length of Pipe/Coil (mtr/roll)
DTL I	32 x 26	3.0	400
DTL II	40 x 33	3.5	200
DTL III	50 x 42	4.0	200

**VINILON STANDARD PE PIPE FOR FIBER OPTIC CABLE**

Diameter (mm)	Wall Thickness (mm)	Length of Pipe/Coil (mtr)
36 x 30	3.0	200
40 x 32	4.0	200
40 x 35.6	2.2	200
110 x 45.2	7.4	5.8/piece
125 x 110.2	7.4	6-12/piece

**SPECIFICATION OF uPVC PIPES TELKOM STANDARD STEL - L - 008**

TYPE	Outside Diameter (D) (mm)	Wall Thickness (mm)
TYPE I	111	5.5
TYPE III	104	2.0
SPECIAL TYPE	108	4.0

## Accessories Fitting

PUSHON END CAP

PUSHON STRAIGHT COUPLING

PVC BELL MOUTH - SC

PVC BELL MOUTH - SP

**PUSHON SYSTEM** easy to install, **JUST ONE SECOND.**

1. Cut the pipe with the pipe cutter.

2. Push the pipe end into the fitting until it touch the inside of the fitting edge.

3. Perfectly joint in one second.
